In 1932 the legendary Marx Brothers began work on one of their most hilarious and enduring feature films, Duck Soup. At the same time work also commenced on their first ever radio series, a half hour sitcom that featured the adventures and mishaps that befell the underhanded lawyer Waldorf T. Flywheel (Groucho) and his hapless assistant Emmanelle Ravelli (Chico). This series, eventually entitled Flywheel, Shyster and Flywheel, written by Marx collaborators and comic geniuses Nat Perrin and Arthur Sheekman, was popular with audiences but short lived and soon forgotten. The scripts were shelved, the recordings discarded and the Marxes went back to work on Duck Soup, A Day at the Races and other comedy classics. Flywheel, Shyster and Flywheel, however, refused to remain buried and tantalizing glimpses of routines from the series went on to be reused in classic films like Duck Soup, A Night at the Opera and The Big Store. Luckily for Marx fans everywhere the scripts to these classic radio broadcasts were

rediscovered in the early 1980s, their publication eventually leading to a affectionate and side splittingly funny British remake of the series for BBC Radio 4. You can't keep a good joke down. For the first time in detail Marx and Re-Marx takes a look at the history of this enduring series, its genesis, its death and its resurrection. Featuring: * Previously unpublished letters from the desk of Flywheel creator Nat Perrin. * Full Episode Guides for both incarnations of the Flywheel and a guide to related productions. * Contributions from the cast and crew of the BBC remake of Flywheel; Mark Brisenden (Weekending, Spitting Image), David Firman (Dinner Ladies, Norbert Smith: A Life), Graham Hoadly (The Adventures of Sexton Blake, Chitty Chitty Bang Bang: The Stageshow), Dirk Maggs (Superman: Doomsday and Beyond, Dirk Gently's Holistic Detective Agency), and Frank Lazarus (Pennies From Heaven, Our Friends in the North). * Transcripts of the remaining recordings of the original series.

Almost immediately after his first appearance in comic books in June 1938, Superman began to be adapted to other media. The subsequent decades have brought even more adaptations of the Man of Steel, his friends, family, and enemies in film, television, comic strip, radio, novels, video games, and even a musical. The rapid adaptation of the Man of Steel occurred before the character and

storyworld were fully developed on the comic book page, allowing the adaptations an unprecedented level of freedom and adaptability. The essays in this collection provide specific insight into the practice of adapting Superman from comic books to other media and cultural contexts through a variety of methods, including social, economic, and political contexts. Authors touch on subjects such as the different international receptions to the characters, the evolution of both Clark Kent's character and Superman's powers, the importance of the radio, how the adaptations interact with issues such as racism and Cold War paranoia, and the role of fan fiction in the franchise. By applying a wide range of critical approaches to adaption and Superman, this collection offers new insights into our popular entertainment and our cultural history.

Faster than a speeding bullet, Superman burst onto the comic book scene in 1938, just as America was on the terrifying precipice of a world war. In a desperate time, legendary creators Jerry Siegel and Joe Shuster brought to life the world's first modern superhero. The Man of Steel emerged as a champion of the oppressed, taking down any enemy with his super-strength and speed, both foreign and near to home. In his distinctive royal blue, red and yellow costume, complete with cape, the stalwart Kryptonian emanated strength and fearlessness. He swiftly became a symbol of

This study provides an in-depth exploration of the dramaturgical practices of radio drama and their underlying philosophical assumptions. By presenting an analytical model drawn from phenomenology, it challenges the current understanding of the medium,

instead focusing on the bodily and aural aspects of radio drama, while offering a critique of the conventions of dramaturgical practice for neglecting these affective sonic aspects. Tracing these conventions through the history of the development of radio drama, it proposes that a more bodily, resonant mode of radio dramaturgy is best placed to meet the demands of the current era of digital production and distribution. The book also examines a number of approaches to creating a more embodied experience for the listener.

Japanese Influence on American Children's Television examines the gradual, yet dramatic, transformation of Saturday morning children's programming from being rooted in American traditions and popular culture to reflecting Japanese popular culture. In this modern era of globalization and global media/cultural convergence, the book brings to light an often overlooked phenomenon of the gradual integration of narrative and character conventions borrowed from Japanese storytelling into American children's media. The book begins with a brief history of Saturday morning in the United States from its earliest years, and the interaction between American and Japanese popular media during this time period. It then moves onto reviewing the dramatic shift that occurred within the Saturday morning block through both an overview of the transitional decades
