Smart, addictive, challenging, fun, and good for the brain—here, in the irresistible 4" x 6" games format, are more than 450 truly satisfying, mind-expanding, full-color puzzles. It's like salted peanuts for the puzzle aficionado and boot camp for the neophyte who wants to give his or her mind a workout. Created by puzzle master Scott Kim—a contributor to Games and Discover magazines—and adapted from the bestselling Amazing Mind Benders Page-A-Day Calendar, The Little Book of Big Mind Benders is a cornucopia of spatial puzzles, number challenges, wordplay, visual conundrums, and more. The puzzles are categorized by type but distributed throughout the book in a mixed fashion (i.e., a word puzzle next to a visual stumper). Readers can move page by page, working different parts of the brain—or easily find their favorite type of puzzle, going from easy to challenging. Test your knack for patterns with Dot Matrix. Put the pieces together in Assemblies. Deduce the secret word in Letter Swap, or untangle the mangled phrases of Lost in Translation. Plus discover cool twists on Sudoku, far-out ambigrams, Wordezoids, mazes, and number crunches. Answers are included in the back of the book.

A NEW YORK TIMES NOTABLE BOOK OF 2015 NAMED A BEST BOOK OF THE YEAR by Time Out, Bustle, The Atlantic, Electric Literature, Kobo, Kirkus and more... "Riveting... thrillerlike...drolly surreal...Ultimately, The Beautiful Bureaucrat succeeds because it isn't afraid to ask the deepest questions." The New York Times Book Review, Editor's Choice "A joyride..." -Karen Russell NAMED A MUST READ OF THE SUMMER by the Chicago Tribune, Los Angeles Times, Bustle, The Huffington Post, Buzzfeed, HelloGiggles and more... A young wife's new job pits her against the unfeeling machinations of the universe in a first novel Ursula K. Le Guin hails as "funny, sad, scary, beautiful. I love it." In a windowless building in a remote part of town, the newly employed Josephine inputs an endless string of numbers into something known only as The Database. After a long period of joblessness, she's not inclined to question her fortune, but as the days inch by and the files stack up, Josephine feels increasingly anxious in her surroundings-the office's scarred pinkish walls take on a living quality, the drone of keyboards echoes eerily down the long halls. When one evening her husband Joseph disappears and then returns, offering no explanation as to his whereabouts, her creeping unease shifts decidedly to dread. As other strange events build to a crescendo, the haunting truth about Josephine's work begins to take shape in her mind, even as something powerful is gathering its own form within her. She realizes that in order to save those she holds most dear, she must penetrate an institution whose tentacles seem to extend to every corner of the city and beyond. Both chilling and poignant, The Beautiful Bureaucrat is a novel of rare restraint and imagination. With it, Helen Phillips enters the company of Murakami, Bender, and Atwood as she twists the world we know and shows it back to us full of meaning and wonder-luminous and new.

These crossword puzzles are packed with names of famous people, movies, TV shows, and songs.

Helps develop comprehension, deductive reasoning, visual tracking and motor skills.

"Empower the mind!"--Cover.

Fun mind candy, with questions that make you think and laugh. Perfect for holiday gatherings, road trips, or just around the dinner table.

This collection includes 150 word puzzles designed just for kids ages 8 to 11 that strengthen vocabulary, reward agile thinking, and reinforce the idea of using the brain. Full color. Consumable.

This collection of stories set in contemporary America--a finalist for the National Book Award--herald a work of singular literary merit by an important writer at the height of her power. We think about it every day, sometimes every hour: Money. Who has it. Who doesn't. How you get it. How you don't. In Refund, Bender creates an award-winning collection of stories that deeply explore the ways in which money and the estimation of value affect the lives of her characters. The stories in Refund reflect our contemporary world--swindlers, reality show creators, desperate artists, siblings, parents--who try to answer the question: What is the real definition of worth? In "Theft," an eighty-year-old swindler, accustomed to tricking people for their money, boards a cruise ship to see if she can find something of true value--a human connection. In "Anything for Money," the creator of a reality show is thrown into the real world when his estranged granddaughter reenters his life in need of a new heart; and in the title story, young artist parents in downtown Manhattan escape the attack on 9/11 only to face a battle over their subletted apartment with a stranger who might have lost more than only her deposit.

In this fun, fascinating and full-color guide, the fan-favorite heroes of Big Hero 6 introduce young readers to the most fascinating, unusual and downright mind-boggling concepts from science, technology, engineering and math - and of the critical thinking skills they'll need to become super-brain superheroes in their own right! Jam-packed with answers to hundreds of fascinating "why" questions that are sure to keep kids turning pages for hours, this book leverages the STEM backgrounds of the Big Hero 6 characters to make every question and concept relevant to today's kids. They'll learn why robots will soon develop AI (whether we want them to or not), why our fingertips wrinkle when they get wet, why the sun is able to eject solar flares into space when there's no oxygen to feed them, why water sometimes runs uphill, and much, much more. While there are other books for children that try to answer the question "why?," the Big Hero 6 Super-Brain Science Book of Why is the only one completely devoted to STEM topics, which are a huge focus of children's education today. What's more, this book also introduces kids to the concept of "critical thinking," with sidebars and callouts throughout, challenging readers to understand how the scientists arrived at the conclusions to these STEM-based questions. With publication timed to coincide with the second season of this hit Disney cartoon, this book will help keep young kids educated and entertained year round.

Discusses Transcendental Meditation, Divine Light Mission, Hare Krishna, the Unification Church, the Children of God, The Way International, the Local Church of Witness Lee, the Peoples Temple Christian Church.
