Curved glass screens were replaced by flat matt finish versions which were much less susceptible to specular reflections and, as DSE became mainstream, appropriate guidance was added to Lighting Guide 7 – Offices rather than continue with a separate guide. In addition, tablets and touch screens are now commonplace and can be used in any orientation so the user has to play much more of a part in choosing how to use their chosen device.

Foreword This Lighting Guide replaces the CIBSE Applications Manual Window design which was published in 1987. The aim has been to build on the strengths of that manual and to update the design guidance and the way in which it is presented. Daylighting and window design is essentially a daylight design guide and a major part of the content deals with this topic.
