In IT mindset companies, people align by function, creating silos between the different areas of the business, product, user experience design, engineering, QA and site operations. In contrast, in a product organization, we depend on true collaboration between product, user experience design, technology and the business units.

Mario Herger: Silicon Valley und das Foresight Mindset

The passion, the love, the desire to make a dent in the universe drives people. And we can show you how Silicon Valley does it. Foresight Mindset™ is a practice that allows you to detect new trends and business opportunities earlier and with more confidence. Creativity is a mindset that can be learned.

About – Foresight Mindset™

The wrong mindset may lead you to apply these tools in ways that actually undermine their intent. For example, you may be committed to having regular 1:1's with each of your team members, but if these meetings consist primarily of you allocating and prioritizing tasks, they are not helpful, and likely even harmful as a coaching tool.
