Published in 1970, the book argues how exit and voice can be used by consumers of a product or service to let producers know their satisfaction (or dissatisfaction) with that good. This chapter first examines the influence of Exit, Voice and Loyalty in various fields before turning to some criticisms and extensions of Hirschman's framework. It then assesses how exit and voice relate to loyalty and social investment as well as the evidence for Hirschman's claim of the exit–voice trade-off.

The Exit, Voice, Loyalty (EVL) Model or Exit, Voice, Loyalty, Neglect (EVLN) is used in the fields of comparative politics and organizational behavior. It is an extensive form game used to model interactions typically involving negative changes to one player's environment by another player. These concepts first appeared in Albert Hirschman's more broadly focused 1970 book, *Exit, Voice, and ...*
