Based on the latest FANUC Series 30 i B CNC Controller, the R-30 i B Robot Controller is compact, providing customers a significant space savings. The R-30 i B Controller is also energy efficient, requiring less power consumption than previous models, and available with an optional power regeneration feature.

## **Controller**

The FANUC R30ia controller is an advanced industrial robot controller that is available in the A-cabinet, B-cabinet, and Mate cabinet styles. Larger robots such as the FANUC M710ic 50 use the B-cabinet style due to larger servo amplifier (FANUC A06B-6107-H002) that the robot requires.
