This book is suitable for those preparing for the examinations of ICB, AAT, IAB, OCR, AQA and all other courses in computerised accounting. Learning computerised book-keeping skills is very different from manual accounting. It can seem more like learning computer studies than book-keeping, and it is often difficult to connect it with what may have been previously learned in manual book-keeping. In this book Dr Marshall resolves this problem with the same skill and insight that made his book on manual book-keeping, *Mastering Book-keeping*, so useful to readers over the years. Deliberately constructing a clear and continuous bridge between the methods so that the student never loses sight of the double entry concept, he presents the material in a way that makes computerised book-keeping clear and easy to understand.

Double-entry accounting can be easy if it's explained well, and *Mastering Book-keeping* does just that. Now in its updated 8th edition, this popular book has helped thousands of people to get to grips with book-keeping. It explains the principles and practice of book-keeping sequentially, and includes: - The daybooks and ledger accounts - End of year accounting - Sole proprietorships, limited companies, partnerships and not-for-profit organisations - Using computers for accounting - Accounting for VAT - Progressing to more advanced management accounting - The implications of the Data Protection Act 1998 on book-keepers Plus step-by-step guides to compiling a balance sheet, depreciation, accounting for bad and doubtful debts, and much more. Everything is made clear with easy-to-follow explanations. Typical transactions are illustrated throughout to make the information even easier to understand. This book is suitable for those preparing for the examinations of ICB, AAT, IAB, OCR, AQA and all other courses in book-keeping and accounts.

The book explains the principles and practice of bookkeeping sequentially, including: ·The bank reconciliation ·Writing up the petty cash book ·Extracting a trial balance ·Accruals and prepayments ·Setting up a limited company ·Accounting for VAT Plus step-by-step guides to compiling a balance sheet, depreciation, accounting for bad and doubtful debts and much

more. The 10th edition also includes significant enhancements to reflect the teachings of the principle bookkeeping institutes as they endeavour to raise the professional competence of their members. For example, accounting staff are increasingly being required to extend their record keeping into management accounts areas. The new edition includes chapters on stock control and budgetary control accounting. In addition, it will include more detailed guidance on the significance and importance of ratio analysis and statements of sources and application of funds, plus the latest available IAB and ICB exam papers.

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.
