Remarkable change is the new reality of International Business. The accelerating cross-border flow of products, services, capital, ideas, technology and people are driving businesses--large and small--to internationalise. International Business 1st Australasian edition: the New Realities is a rigorous resource which motivates and prepares future managers to operate in multi-national settings, by delivering a teaching system that works. Based on the authors' collective teaching and working experience--as well as discussions with practitioners, students, and faculty staff--this is a complete teaching and learning system where cases, exercises and management skill builders are seamlessly integrated and matched to the topics in each chapter. Case studies from a wide variety of markets relevant to Australasian businesses, including ASEAN countries (e.g. Singapore, Malaysia, Indonesia) as well as China, India, Japan, South Korea, Pakistan, Europe and the Middle East, provide a real-world perspective to theories and examine the latest trends in international business. For undergraduate students majoring in international business or post-graduate courses in international business.

Wealth management is one of the areas in which banks and other personal financial services players are investing heavily. But the market is changing fast. Going forward, players therefore need to adapt their strategies to the new realities: what worked in the past will not, for the most part, be appropriate in the future. This unique book, written by a former McKinsey consultant, offers an up-to-date, detailed, practical understanding of this exciting area of financial services.

The 'new realities' of the title refer to the state of government, society and the economy in the USA, Japan, Western Europe, Russia and the Third World. With characteristic authority and clarity of style, Drucker attempts to define the concerns, issues and controversies of today which will become the realities of the future. Already the bestselling author of many books on management and economics, Drucker has innumerable followers. Now turning to address the changing demands of a post business society, the broad-ranging theme and vision of The New Realities will win him many more admirers.

Two authors with decades of experience promoting human rights argue that, as the world changes around us, rights hardly imaginable today will come into being. A rights revolution is under way. Today the range of nonhuman entities thought to deserve rights is exploding—not just animals but ecosystems and even robots. Changes in norms and circumstances require the expansion of rights: What new rights, for example, are needed if we understand gender to be nonbinary? Does living in a corrupt state violate our rights? And emerging technologies demand that we think about old rights in new ways: When biotechnology is used to change genetic code, whose rights might be violated? What rights, if any, protect our privacy from the intrusions of sophisticated surveillance techniques? Drawing on their vast experience as human rights advocates, William Schulz and Sushma Raman challenge us to think hard about how rights evolve with changing circumstances, and what rights will look like ten, twenty, or fifty years from now. Against those who hold that rights are static and immutable, Schulz and Raman argue that rights must adapt to new realities or risk being consigned to irrelevance. To preserve and promote the good society—one that protects its members' dignity and fosters an environment in which people will want to live—we must at times rethink the meanings of familiar rights and consider the introduction of entirely new rights. Now is one of those times. The Coming Good Society details the many frontiers of rights today and the debates surrounding them. Schulz and Raman equip us with the tools to engage the present and future of rights so that we understand their importance and know where we stand.

In this comprehensive handbook of theory and practice of international advertising, the subjects are not treated in isolation, but rather linked to overall trends in business globalization. The contributors, representing academics and professionals from ten different countries, examine all aspects of international advertising, from broad concepts and issues, developments in specific countries, and cutting-edge techniques developed outside of the United States. The result is a single 'knowledge-bank' of theory and practice for advertising students and professionals.
