Abstract. This paper brings forth the importance of public conscience in Hobbes's account of politics and law. It connects this idea to the famous Martens Clause that played and continues to play a crucial role in international legal debates. The Martens Clause, part of the preliminary materials of the Hague Conventions, posits that humanity's 'public conscience' should play a role in international legal norms concerning warfare when treaties or conventions do not provide guidance.

of Politics: Individual ...~~
This metaphysical impasse is therefore not a merely private matter, but also one of political, public conscience, that has to be democratically contested. And yet the liberal, pro-abortionist side of the argument must logically deny this contestability, for reasons that we have seen.
