The book is written in such a way that learners without any background in programming are able to follow and understand it entirely. It discusses the concepts of Java in a simple and straightforward language with a clear cut explanation, without beating around the bush.On reading the book, readers are able to write simple programs on their own, as this is the first requirement to become a Java Programmer. The book provides ample solved programs which could be used by the students not only in their examinations but also to remove the fear of programming from their minds.After reading the book, the students gain the confidence to apply for a software development company, face the interview board and come out successful. The book covers sample interview questions which were asked in various interviews. It helps students to prepare for their future careers.

In this book, the authors present topical research in the study of the clinical pharmacology, medical uses, and adverse effects of ibuprofen. Topics discussed include the occurrence, ecotoxicity and water remediation technologies of ibuprofen in the aquatic environment; associated adverse drug reaction in ibuprofen use; hybrid multifunctional ibuprofen drugs; a pharmaceutical nanotechnology approach to ibuprofen delivery; vibrational dynamics and chiral properties of racemate and pure enantiomers of ibuprofen complexed in cyclodextrins; therapeutic effects of ibuprofen on transgenic mice models of neurodegenerative diseases; and the use of ibuprofen for pain relief in gynecology.

This useful book provides a complete guide to sewing. With forty-five chapters including 'The A B C's of Stitches - Basic Instructions in Sewing', 'Embroidery and Applique', 'How to Make Coats and Jackets' and 'How to Make Curtains', this book will prove itself invaluable in any home. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

A handbook on garment construction, including fitting and other problems of garment making. Fourth edition.

This dictionary contains 10,000 Russian words in order of importance starting with the most common and finishing with words that occur about 8 times in a million. All the words have English translations, many have examples of usage and the entries include information on stress and grammatical irregularities. There is also a complete alphabetical index to the words in the list. A learner who knows all or most of these 10,000 words can be regarded as competent in Russian for all normal purposes. The list takes you from a beginner's core vocabulary through to postgraduate level.

Explains which sewing-machine accessories to use when , with the aim of saving time, creating beautiful embellishments, working with difficult-to-handle fabrics and much more. Original.

Bordered by the Hudson River and the Berkshire Mountains, Columbia County is part of the famously picturesque Hudson Valley region. But look beyond the rolling hills to discover the secrets of Columbia County. A mastodon tooth rolled down a farmer's hill in Claverack, changing the world's understanding of prehistoric times. President Martin Van Buren lost his wife, Hannah, in Kinderhook and hardly mentioned her again. Hudson's gallows were the scene of New York's last hanging, as hundreds of ticketholders looked on. Outcasts called "Pondshiners" hid in the hills of Taghkanic, and the only sign of their existence are the fantastic baskets they made. Join local author Allison Guertin Marchese as she explores these little-known stories of people and places, deeply woven into the history of Columbia County, New York.

Nothing epitomizes the look of the 1950s more for women than the hour-glass silhouette of the tightly fitted bodice and full skirt. This ubiquitous style - first introduced in 1947 with Dior's New Look - was so widely adopted by the mid-50s that it came to define the decade. This practical book introduces and explores the styles and construction techniques used in the 1950s. Step-by-step instructions and photographs demonstrate how to achieve a well-finished and authentic look using equipment easily obtainable at home. Chapters explain the processes from fabric selection, cutting out and preparation through to garment assembly using traditional techniques for creating the silhouette of the day. There are photographs and analysis of original pieces from private collections and museum archives and scaled patterns that have been standardized to a modern size 12 and can be graded up and down in size. With patterns and instructions for making your own bullet bra and girdle, each project includes a materials and equipment list and a section on specialist stockists and suppliers. Additional chapters include practical advice on measuring and fitting, and how to create the 1950s look. Aimed at students, teachers of costume, re-enactment societies and costume designers for TV, theatre and film and superbly illustrated with 300 colour photographs and 14 patterns.

By anticipating beginners' questions, this illustrated guide teaches everything needed to fashion beautiful hand-crafted goods. Create a table runner; make buttonholes; stitch a handbag, throw pillows, curtains, and more. "A boon to learning...Large photos and ample illustrations accompany step-by-step instructions."-Sew News. "A fantastic guide for first-time sewers and those looking to brush up on the basics."-Butterick Home Catalog.
