Followers of Muhammad b. 'Abd al-Wahhab, often considered to be Islam's Martin Luther, shaped the political and religious identity of the Saudi state while also enabling the significant worldwide expansion of Salafist Islam. Studies of the movement he inspired, however, have often been limited by scholars' insufficient access to key sources within Saudi Arabia. Nabil Mouline was granted rare interviews and admittance to important Saudi archives in preparation for this groundbreaking book, the first in-depth study of the Wahhabi religious movement from its founding to the modern day. Gleaning information from both written and oral sources and employing a multidisciplinary approach that combines history, sociology, and Islamic studies, Mouline presents a new reading of this movement that transcends the usual resort to polemics.

Deadly Clerics explains why some Muslim clerics adopt the ideology of militant jihadism while most do not. The book explores multiple pathways of cleric radicalization and shows that the interplay of academic, religious, and political institutions has influenced the rise of modern jihadism through a mechanism of blocked ambition. As long as clerics' academic ambitions remain attainable, they are unlikely to espouse violent jihad. Clerics who are forced out of academia are more likely to turn to jihad for two reasons: jihadist ideas are attractive to those who see the system as turning against them, and preaching a jihad ideology can help these outsider clerics attract supporters and funds. The book draws on evidence from various sources, including large-scale statistical analysis of texts and network data obtained from the Internet, case studies of clerics' lives, and ethnographic participant observations at sites in Cairo, Egypt.

The Saudi "ulama" are known for their strong opposition to Shi'a theology, Shi'a communities in Saudi Arabia, and external Shi'a influences such as Iran and Hezbollah. Their potent hostility, combined with the influence of the 'ulama' within the Saudi state and the Muslim world, has led some commentators to blame the Saudi 'ulama' for what they see as growing sectarian conflict in the Middle East. However, there is very little understanding of what reasoning lies behind the positions of the 'ulama' and there is a significant gap in the literature dealing with the polemics directed at the Shi'a by the Saudi religious establishment. In Saudi Clerics and Shi'a Islam, Raihan Ismail looks at the discourse of the Saudi "ulama" regarding Shiism and Shi'a communities, analysing their sermons, lectures, publications and religious rulings. The book finds that the attitudes of the "ulama" are not only governed by their theological convictions regarding Shiism, but are motivated by political events involving the Shi'a within the Saudi state and abroad. It also discovers that political events affect the intensity and frequency of the rhetoric of the ulama at any given time.

This book attempts the first major study of the Jakhanke people. The Jakhanke have since the thirteenth century been a specialist group of Muslim clerics and teachers, living among the Serakhulle, from whom they sprang, and the Manding, whose language they speak. Despite the nineteenth-century ambience of militancy, they maintained their tradition of consistent pacifism and political neutrality which is unique in Muslim Black Africa. Their manuscripts and clan histories survive today in precious family collections and libraries. The author has drawn on these histories, present-day interviews, travellers' observations and colonial reports to weave a fascinating, comprehensive study of the Jakhanke for the first time in any language. The author traces the details of their wanderings and analyzes important themes such as their system of education, their function as dream-interpreters and amulet-makers and finally, the dark side of the coin, the dependence of their way of life on the institution of slavery. Includes photos and maps.

Religion and Politics in Iraq features four chapters that outline the major political developments faced by Iraq's Muslim clerics from the end of the 19th century, under the ailing Ottoman empire, to the 1980s. This crucial period saw fierce internal struggles, foreign intervention and bloody persecution of the political opposition, as well as the emergence of a totalitarian one-party system with absolute control over all sectors of social and religious life. During this period, Baathist Iraq attacked its Muslim neighbours Kuwait and Iran and used poison gas in its "ethnic cleansing" campaign against the Kurds. This book focuses on the dilemma of Iraq's clerics within this setting, caught between political activism and quietism. It addresses also major developments in neighbouring Iran insofar as they had a bearing on Iraq.

In this book, economist Jean-Philippe Platteau addresses the question: does Islam, the religion of Muslims, bear some responsibility for a lack of economic development in the countries in which it dominates? In his nuanced approach, Platteau challenges the widespread view that the doctrine of Islam is reactionary in the sense that it defends tradition against modernity and individual freedom. He also questions the view that fusion between religion and politics is characteristic of Islam and predisposes it to theocracy. He disagrees with the substantivist view that Islam is a major obstacle to modern development because of a merging of religion and the state, or a fusion between the spiritual and political domains. But he also identifies how Islam's decentralized organization, in the context of autocratic regimes, may cause political instability and make reforms costly.

This book examines the attitudes of the Saudi 'ulama' toward the Shi'a. It is an in-depth study of the theological convictions of the 'ulama' and their political motivation when examining Shi'a sects,

communities, and political actors. The Saudi 'ulama' are known for their strong opposition to Shi'a theology, Shi'a communities in Saudi Arabia, and external Shi'a influences such as Iran and Hezbollah.

From the cleric-led Iranian revolution to the rise of the Taliban in Afghanistan, many people have been surprised by what they see as the modern reemergence of an antimodern phenomenon. This book helps account for the increasingly visible public role of traditionally educated Muslim religious scholars (the 'ulama) across contemporary Muslim societies. Muhammad Qasim Zaman describes the transformations the centuries-old culture and tradition of the 'ulama have undergone in the modern era--transformations that underlie the new religious and political activism of these scholars. In doing so, it provides a new foundation for the comparative study of Islam, politics, and religious change in the contemporary world. While focusing primarily on Pakistan, Zaman takes a broad approach that considers the Taliban and the 'ulama of Iran, Egypt, Saudi Arabia, India, and the southern Philippines. He shows how their religious and political discourses have evolved in often unexpected but mutually reinforcing ways to redefine and enlarge the roles the 'ulama play in society. Their discourses are informed by a longstanding religious tradition, of which they see themselves as the custodians. But these discourses are equally shaped by--and contribute in significant ways to--contemporary debates in the Muslim public sphere. This book offers the first sustained comparative perspective on the 'ulama and their increasingly crucial religious and political activism. It shows how issues of religious authority are debated in contemporary Islam, how Islamic law and tradition are continuously negotiated in a rapidly changing world, and how the 'ulama both react to and shape larger Islamic social trends. Introducing previously unexamined facets of religious and political thought in modern Islam, it clarifies the complex processes of religious change unfolding in the contemporary Muslim world and goes a long way toward explaining their vast social and political ramifications.

"Investigates how different approaches to religious interpretation influence Indonesian women's engagement with global Islam and feminism. It also explores the consequences of a more public Islam for women's participation in the public sphere. The book is based on extensive ethnographic fieldwork between 2002 and 2010 with four different groups of women activists in Jakarta, the Indonesian capital. The groups include a secular feminist NGO (Solidaritas Perempuan), a Muslim women's rights NGO (Rahima), the women's group of one of the country's largest Muslim organizations (Fatayat N.U.), and women in a conservative Muslim political party (the Prosperous Justice Party). The women in these have all been deeply influenced by the ongoing Islamic revival. In addition, they are part of the urban middle class. The women of Rahima and Fatayat N.U. are influenced by global feminism and Islamic discourses. They use Islam to express feminist and liberal ideals of equality and rights, and they strive to integrate these frameworks in their own lives. In contrast, women in the Prosperous Justice Party (PKS) reject feminism as Western and secular and are more influenced by global Islamic discourses. Although some scholars argue that pious Islam and liberal ideals are incompatible, these activists embrace modernity and sometimes speak in terms of individual agency, empowerment, and rights. The women of Solidaritas Perempuan maintain a balance between their secular activism and personal religiosity. The overall conclusion of *Mobilizing Piety* is that the Islamic revival has not stymied but has in fact helped to empower many Indonesian women, especially by allowing them to participate in national debates about moral and religious issues"--
