Pre-Socratic philosophy - Wikipedia

Synopsis. The first philosophers paved the way for the work of Plato and Aristotle - and hence for the whole of Western thought. Aristotle said that philosophy begins with wonder, and the first Western philosophers developed theories of the world which express simultaneously their sense of wonder and their intuition that the world should be comprehensible.

The First Philosophers The Presocratics and Sophists ...

The First Philosophers (2000) is a collection of the ideas of the most important Greek philosophers that lived before or were contemporaries of Socrates. This somewhat arbitrary distinction between pre-Socratic and post-Socratic philosophy becomes problematic when one reads about the ideas of these thinkers.

(VII.1) "First" philosophers they are—but not quite. Heraclitus, the first of the first, needs more defense in this respect than Parmenides. Aristotle counts him among the physicists because he makes fire a first principle. It is a misunderstanding: Heraclitus does indeed bring in a physical fire, an analytic agent, so to speak, of matter.
