Five Forms, which was also exhibited in 1938 as Quatre objets sur une forme ovale (Four Objects on an Oval Form), is the finest and largest surviving example. It is made of solid plaster and consists of two cones of different sizes, a tusk-like curved cone, and a similar form cut in half lengthways, deployed upon an oval base.

The Five Forces is a framework for understanding the competitive forces at work in an industry, and which drive the way economic value is divided among industry actors. First described by Michael Porter in his classic 1979 Harvard Business Review article, Porter's insights started a revolution in the strategy field and continue to shape business practice and academic thinking today.
