The title of Charles Taliaferro's book is derived from poems and stories in which a person in peril or on a quest must follow a cord or string in order to find the way to happiness, safety, or home. In one of the most famous of such tales, the ancient Greek hero Theseus follows the string given him by Ariadne to mark his way in and out of the Minotaur's labyrinth. William Blake's poem "Jerusalem" uses the metaphor of a golden string, which, if followed, will lead one to heaven itself. Taliaferro extends Blake's metaphor to illustrate the ways we can link what we see, feel, and do with deep spiritual realities. Taliaferro offers a foundational case for

the recognition of the experience of the eternal God of Christianity, in which God is understood as the fount of all goodness and the subject and object of our best love, revealed through scripture, tradition, philosophical reflection, and encountered in everyday events. He addresses philosophical obstacles to the recognition of such experiences, especially objections from the "new atheists," and explores the values involved in thinking and experiencing God as eternal. These include the belief that the eternal goodness of God subordinates temporal goods, such as the pursuit of fame and earthly glory; that God is the essence of life; and that the eternal God hallows domestic goods, blessing the everyday goods of ordinary life. An exploration of the moral and spiritual riches of the Christian tradition as an alternative to materialism and naturalism, *The Golden Cord* brings an originality and depth to the debate in accessible and engaging prose.

From the ancient Olympic games to the World Series and the World Cup, athletic achievement has always conferred social status. In this collection of essays, a noted authority on ancient sport discusses how Greek sport has been used to claim and enhance social status, both in antiquity and in modern times. Mark Golden explores a variety of ways in which sport provided a route to social status. In the first essay, he explains how elite horsemen and athletes tried to ignore the important roles that jockeys, drivers, and trainers played in their victories, as well as how female owners tried to rank their equestrian achievements above those of men and other women. In the next essay, Golden looks at the varied contributions

that slaves made to sport, despite its use as a marker of free, Greek status. In the third essay, he evaluates the claims made by gladiators in the Greek east that they be regarded as high-status athletes and asserts that gladiatorial spectacle is much more like Greek sport than scholars today usually admit. In the final essay, Golden critiques the accepted accounts of ancient and modern Olympic history, arguing that attempts to raise the status of the modern games by stressing their links to the ancient ones are misleading. He concludes that the contemporary movement to call a truce in world conflicts during the Olympics is likewise based on misunderstandings of ancient Greek traditions.
