Daniel Levinson's Seasons of Man: Summary & Analysis. In May of 1977, Daniel Levinson constructed a model of the seasons of a man's life. His developmental theory consists of universal stages or phases that extend from the infancy state to the elderly state. Most development theories, such as Freud's psychosexual development theory or Piaget's cognitive development theory, end in the adolescent stage of life.

That the lack of progress was a problem that needed to be fixed. Either I was the problem-I was doing the wrong things or having the wrong mindset-or there were circumstances in my life that needed to be remedied. And I would embark on a combination of self-flagellation and frenetic search for what was ailing me.

The man then explained to his sons that they were all right, because they had each seen but only one season in the tree's life. He told them that you cannot judge a tree ? or a person ? by only one season. The essence of who we are, the pleasure, joy, and love that come from life can only be measured at the end, when all the seasons are up.
