Guidelines addressing the suitability of marking and labeling systems when used with an end product are included in the UL report under Conditions of Acceptability. The Conditions of Acceptability generally cover application surfaces, temperature ratings and additional exposure conditions for which the product was found acceptable.

Marking and Labeling Systems Program | UL  
UL Marking Guides are different than UL Standards. UL Standards focus on equipment specifications and requirements necessary for manufacturing, testing, and proper enforcement of the product. Marking Guides, on the other hand, offer information to the user as to what the markings of UL listed or certified products mean. There are currently 11 UL Marking and Application Guides available from UL. They are free and available for download on www.ul.com.
