<p>"America's best novelist" (The Denver Post) brings back one of his most fascinating characters—Texas sheriff Hackberry Holland, cousin to lawyer Billy Bob Holland—in this heart-pounding bestseller. In a heat-cracked border town, the bodies of nine illegal aliens—women and girls, killed execution-style—are unearthed in a shallow grave. Haunted by a past he can't shake and his own private demons, Hack attempts to untangle the grisly case, which may lead to more bloodshed. Damaged young Iraq vet Pete Flores, who saw too much before fleeing the crime scene, and his girlfriend, Vikki Gaddis, are running for their lives. Sorting through the lowlifes who are hunting down Pete, and with Preacher Jack Collins, a Godfearing serial killer for hire, in the mix, Hack is caught up in a terrifying race for survival—for Pete, Vikki, and himself.</p>

<p>AN INSTANT NEW YORK TIMES BESTSELLER! A young entrepreneur makes the case that politics has no place in business, and sets out a new vision for the future of American capitalism. There's a new invisible force at work in our economic and cultural lives. It affects every advertisement we see and every product we buy, from our morning coffee to a new pair of shoes. "Stakeholder capitalism" makes rosy promises of a better, more diverse, environmentally-friendly world, but in reality this ideology championed by America's business and political leaders robs us of our money, our voice, and our identity. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, he became a hedge fund partner in his 20s, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, America's elites prey on our innermost insecurities about who we really are. They sell us cheap social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we as Americans lack both. This book not only rips back the curtain on the new corporatist agenda, it offers a better way forward. America's elites may want to sort us into demographic boxes, but we don't have to stay there. Woke, Inc. begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American in 2021—a journey that begins with cynicism and ends with hope.</p>
<p>F. Scott Fitzgerald, Ernest Hemingway, Ezra Pound, and James Joyce walk into a Parisian bar... no, it's not the beginning of a joke, but the premise of Jason's unique new graphic novel. Set in 1920s Paris, The Left Bank Gang is a deliciously inventive re-imagining of these four literary figures as not only typical Jason anthropomorphics, but... graphic novelists! Yes, in Jason's warped world, cartooning is the dominant form of fiction, and not only do these four literary giants work in the comics medium but they get together to discuss pen vs. brush, chat about the latest graphic novels from Dostoevsky ("I can't tell any of his characters apart!") to Faulkner ("Hasn't he heard of white space? His panels are too crowded!"), and bemoan their erratic careers. Add in a hilarious sequence where Hemingway is lectured by an overbearing Gertrude Stein ("What kind of pencil are you using? You should be using a blue pencil, that way you don't have to erase, all right? Avoid captions. Don't ever write 'A little later.' You don't need that. The reader will figure it out."), guest appearances by Zelda Fitzgerald and Jean-Paul Sartre, and a few remarkable twists and turns along the way, and you've got one of the funniest and most playful graphic novels of the year.</p>

<p>As a coach, it is often cause for concern to see your athletes performing skills well in practice but struggling in the game. Coaching Football Technical and Tactical Skills focuses on the situational decisions players and coaches make that often determine the outcome of games. Written by the American Sport Education Program (ASEP) in conjunction with Rob Ash, the head football coach at Drake University, this book allows players to gain valuable gamelike playing experience in practice by putting them in key tactical situations like the scramble, man-to-man and zone pass coverage, and outside kick. Each skill is clearly described, and nearly 150 photos are used to further help you understand and implement the techniques in specific situations. Included are quick tips on how to detect and correct errors, cues athletes need to be aware of in various tactical situations, and key information your athletes need to know to make the appropriate decisions on the field. Skills are cross-referenced to show how they relate to each other and to enable you to plan practice situations quickly. Eight detailed practice plans incorporating gamelike situations and a season plan are included to help you get the most out of each practice. Endorsed by the American Football Coaches Association (AFCA), Coaching Football Technical and Tactical Skills serves as a companion resource for ASEP's Coaching Football Technical and Tactical Skills online course, which, along with Coaching Principles and Sport First Aid courses and CPR certification, makes up the curriculum for ASEP's Bronze Level coaching certification program. Numerous state high school associations, colleges and universities, national sport organizations, and national governing bodies of Olympic sports use the Bronze Level in whole or in part to qualify coaches. The Bronze Level prepares coaches for all aspects of coaching and is a recognized and respected credential for all who earn it.</p>
